C.H.A.D. Award
(Sponsored by the Leadership Development Team)

The C.H.A.D. Award (Caring, Helping, Aspiring, and Developing) recognizes a student, faculty, or staff member each semester who exemplifies Chad Nienhueser’s life and aspirations. “I feel very passionately about leadership, and I want all students to be able to experience what they can do as leaders. I believe that empowering students to become leaders is one of the greatest things that a student can learn while at Tech. If we can give students knowledge in not only science, math, and engineering, but also leadership, communication, and teamwork, our students can go further and inspire greatness in themselves.” – Chad Nienhueser

Recipient___________________________________________________
