Reporting Your Assessment Results

Session Goals and/or ABET Criterion (Criteria) Addressed

A model will be proposed for reporting assessment results in ways that will promote a smooth on-campus visit when the ABET team arrives. As a result of this session attendees should understand one model for the development of an ABET report for Criteria related to program objectives and learning outcomes.

Presentation Format

This session will be a presentation with an opportunity for attendees to ask questions throughout the presentation.

Session Summary

The model for reporting assessment and evaluation outcomes contains a step-by-step method of presenting the results of the assessment process in a logical and straightforward manner that will assist the ABET evaluators in understanding how you are achieving criteria related to the assessment of objectives and learning outcomes. Each attendee will receive an outline and a sample report that illustrates how the data can be presented in a cohesive, easy to understand format.

Key Words
Assessment, reporting, model of reporting, sample report
